Today I'm going to talk about education. "The roots are bitter, but the fruit is sweet". I think this phrase's meaning ~~or~~ is that education is not easy, but if you study hard, the consequences will be great.

I agree with that quotation because even in my age I have already felt the advantages of studying. In my life I had been studying a lot, and now I see that it wasn't clueless. Education isn't always easy - it includes late nights and frustrating concepts. But looking back, those "bitter roots" are what allowed me to become more clever. And the "sweet fruits" are confidence with yourself and opportunities.

To proof my words, I'll give examples from literature and history. I remember the Abraham Lincoln's story - he educated himself by walking miles to borrow books because of his poverty. His "sweet fruit" was the presidency and ~~the~~ the mastery of language. And from literature, I would like to talk about the students ~~in~~ in "The Dead Poets Society". Their "bitter root" is exhausting education at Welton Academy. But all characters in the end got their "sweet fruits", so their hard work was awarded.

In conclusion, I would like to say that there are lots of examples from history and literature that proves this quotation.
